## I.S.S. Secretary Here On Western Tour

### Council Notes

The last Council meeting was a model of efficient student government. Members sat down before an impressive and important agenda which they handled with the utmost of dispatch and the minimum of bickering.

\* \* \* \* \*

Constitutional amendments were the most important items dealt with at the meeting. It was decided that the Golden Key Society Constitution should undergo radical change. It seems that this organization has not been taken seriously by some sections of the student body. Report was made of a law student who but five dollars he could get nominated for the Society last year—and he did! A committee was appointed to draft the necessary constitutional revision.

\* \* \* \* \*

Budget meetings also received quite a beating. Although everyone expressed satisfaction that a quorum had turned out at Friday's meeting, there was evident dissatisfaction about the whole budget set-up.

One Council member reported overhearing a post-budget remark to the effect that our President should be known as "Mike 'Casey Jones' O'Bryne, the greatest railroader ever to pull the throttle on a budget engine." After this Mike's efforts to maintain order and expedite business were frequently greeted with a "Toot-toot!"

After some discussion, it was decided to amend the constitution to provide that where a budget meeting is duly called and a quorum does not attend, the budget will be deemed to have been passed.

\* \* \* \* \*

To the amazement of many, a motion to abolish the Sophomore and Junior Classes passed without a murmur. A remark was made, however, that if there is anything left to the class system at all, we might be fortunate enough to get a spirited protest. But the proposed amendment has been duly posted.

\* \* \* \* \*

Campus musicians and the SUB House Committee scored a point in persuading Council to move the piano already in the Music Room down to the Mixed Lounge and to purchase a reconditioned upright for the Music Room. The winning argument was that there would be much greater use of the piano in the Mixed Lounge.

\* \* \* \* \*

First move on the second stage of the Students' Union Building was made in appointing the Executive as a Committee on Second Stage Negotiations to survey our present position and lay the groundwork for future developments.

### Rotarians To Fete Members' Sons, Daughters

Rotarians of Edmonton wish to meet and entertain any and all sons and daughters of Rotarians who are now members of the club.

There are branches of the Rotary International in most of the larger towns and cities of Alberta. Many Rotarians from these places have sons or daughters attending our universities. As a gesture of friendship to their fellow Rotar-

#### FOUND

ians and to get the chance to meet their children, the Rotary Club wishes to have them attend the annual Rotarian luncheon. This day, November 23rd, at 12:10 p.m., in the Macdonald Hotel.

Those who wish to attend the luncheon, and the Rotarians hope to have their sons and daughters will do so, should leave their names with Mr. J. M. Whidden, Bursar, Room 21 Arts Building. If you can't call personally, you may contact him at 369203.

No matter where you may come from, the Rotary Club of Edmonton would like to meet you. If your father is a Rotarian, contact Mr. Whidden as soon as possible.

Already this season, one dance has been broadcast on the spot, and the others have been recorded for presentation on "Varsity Varieties," a regular Thursday night feature. In the next few weeks, Varsity basketball games will be broadcast.

Student broadcasts on Thursday evening are heard from 6:45 to midnight.

Cliff is just one of many members of the student body at U of A who take part in the Radio Society's "Varsity Night" broadcasts over CKUA. His newscast is sent over telephone lines to Whitehorse to supply a much-needed link for the Northerners with the outside world.

A native of Yorkton, Saskatchewan, Cliff McCormick has had some radio experience with station CKGK in Yorkton, one of the most popular smaller stations in the province.

"Varsity Night" on CKUA provides over five hours of student-produced programs every week. Included are sports and news, university musical talent, the popular quiz show, "Champs—or Chumps?", and others.

This week, the Radio Society, in addition to its regular activities, is presenting a talk by Mr. D. E. Cameron, manager of the CBC's Alberta station, CFBX. At 8:00 Tuesday evening, Nov. 14, in the mixed lounge of the Students' Union Building, Mr. Cameron will speak on "Why a CBC?"

Varsity Night broadcasts are not the only feature of the Radio Society programming. Special Varsity events are also covered by the club. Included are dances, concerts, numerous sports' events, and other special campus attractions.

### Varsity Students On CKUA

Every Thursday evening at 10:00, thousands of radio listeners in Alberta and in the Yukon and Northwest Territories hear Cliff McCormick of the Varsity Student Radio Society reading the latest world and local news.

### CHARLESTON CAPERS

Students and alumni alike thoroughly enjoyed themselves at the variety show "Now and Then". Among the featured numbers was the one shown above, the Charleston. This

dance is currently undergoing a revival, but it made its debut under the jazz era of the twenties, and was well remembered by many of the alums.

### Philosophical Society Hears Dr. Thompson Wednesday

By Allan Collins

Dr. Edmund J. Thompson, Principal of St. Stephen's College, spoke to members and guests of the Philosophical Society Wednesday, Nov. 8, 1950, at 8:00 p.m. in Med. 135. Dr. Thompson spoke on the topic, "The Riddle of Human Nature."

Thompson made no attempt to answer the riddle of human nature. The speaker, however, asked several questions in an attempt to clarify the riddle itself. Beginning with the problem of man's origin, the speaker emphasized that this question has been considered for centuries and with the abandonment of the old doctrine of materialism and the advent of modern atomic theory, the problem has been forgotten.

The implications of modern atomic theory for our understanding of the material universe, including the physical body, must now allow us to imagine we have accounted for origins simply because we have examined the development of matter, phenomena, over a relatively brief segment of time," he said.

Principal Thompson considered next the progress of the individual through life from birth until death. There are at least three significant developments that have to be reckoned with: (1) there is the appearance of life, the point at which matter becomes a living entity; (2) there is the appearance of con-

siousness, the living creature becomes a self-conscious individual, a psychological entity; and (3) there is the emergence of moral consciousness, an awareness of right and wrong, the development of ethical distinctions."

The second question the speaker discussed was that of moral consciousness, which he described as a "baffling problem in the understanding of human nature." He declared that it is this moral consciousness, the ability to choose between right and wrong, which raises man above the rest of nature.

Dr. Thompson cited the case of Adam and Eve as an illustration of the example which comes to mind. When, having become self-conscious being, there appear also the moral consciousness, the awareness that there is right and a wrong, and a desire to make a choice. Just as Adam and Eve brought about their own ejection from the garden of happiness by their own egotism, so a man who has destroyed his own possibilities of achievement and felicity by the moral choice he has made."

The speaker discussed the evolutionary development of moral consciousness in men. To prove the fallacy of this concept he pointed out the atrocities of the Nazi regime, if not perhaps he has destroyed his own possibilities of achievement and felicity by the moral choice he has made."

The speaker discussed the evolutionary development of moral consciousness in men. To prove the fallacy of this concept he pointed out the atrocities of the Nazi regime, if not perhaps he has destroyed his own possibilities of achievement and felicity by the moral choice he has made."

Everyone believes in future life. Everyone has plans and expectations which are projected into the future, even though the extent of that future is not certain. Dr. Thompson will speak again next week, a few days from now, on death, stability within the personal identity is related to that belief in a future extension of our present existence. The speaker will also discuss just how far into the future will man's personal existence extend."

He stated that the belief in the immortality of the soul has no purpose to live the good life.

The third question considered was that of the relationship of body and mind, which has been a favorite discussion of psychologists. Dr. Thompson expounded four of these theories concluding that the fact that several theories exist is adequate proof of the baffling problem in the understanding of human nature."

### Speaks At Several Meetings Fri., Sat.

Busy weekend of conferences and talks is in store for Pat Daniel, national secretary of Canadian I.S.S.

Mr. Daniel arrived in Edmonton at 6:20 Friday morning from Saskatoon, where he had seen University of Saskatchewan leaders.

He will be in Edmonton until Tuesday morning, when he will leave for the Pacific coast. While in Edmonton he will be willing to confer with any group not yet contacted. Such groups may arrange meetings by phoning 31845.

Mr. Daniel began his schedule of activities this morning by interviews with President Stewart and Hon. Ivan Casey, provincial minister of education. At two o'clock he spoke to a special meeting of the Students' Council, outlining the various problems of I.S.S.

Dinner meeting at the varied residence will head during the weekend. Friday evening he will address students in Athabasca Hall. St. Stephen's and St. Joseph's Colleges will introduce him to their students Saturday evening and Sunday evening respectively.

John MacRae, Alberta secretary of the Student Christian Movement, has announced that Mr. Daniel will be guest speaker at the annual Canadian I.S.S. convention to be held at 9 o'clock in Athabasca Lounge.

The ISS secretary will probably also attend the SCM work camp which is to be held in the summer.

Monday afternoon will find him in conference with Edmonton's Mayor Parsons, Mayor Parsons and the City Council have already invited him to speak at the International Student Service. The Council having voted a sum toward sending university delegates to the ISS Seminar, held this summer in Princeton, N.J.

Clinics of his visit to the Alberta campus will come Monday night, when he will be chief speaker at the International Night to be held in the University Building.

This evening of entertainment is described elsewhere in The Gateway.

Students' Union President Mike O'Byrne has expressed pleasure concerning the speaker. Dr. Daniel has been invited to speak at the annual ISS national convention to be held in June.

ISS executive feel that his visit will be a great success.

The final question discussed was that of man's ultimate destiny. Of paramount importance to this problem is an understanding of death, a subject which needs more frank discussion.

Dr. Daniel has been invited to speak at the annual headquarters in Toronto.

Since he became secretary in January, Dr. Daniel has held a large number of one-time talks up and down the country.

He holds an office staff of four at the national headquarters in Toronto.

He has addressed the International Night at the University Building, and the annual seminar and the national conference, held in Kingston three weeks ago.

He is just now leaving Canada, many details of organization of the nationwide organization he is employed by.

He has spoken at the annual Varsity Fair and their usual stellar performances, singing songs of yesterday and today.

Phi Kappa Pi "Dixieland Band" was another of the attractions of the Varsity Fair.

Dr. Daniel has been invited to speak at the annual seminar and the national conference, held in Kingston three weeks ago.

He has addressed the International Night at the University Building, and the annual seminar and the national conference, held in Kingston three weeks ago.

### Studio Players Present Molire Comedy Nov. 20

Varsity students will once again professional drama on the campus when the Studio Players of the University of Alberta present the Molire comedy, "School for Wives."

The production will be staged in the Studio Theatre from November 20 to December 2. Student tickets will be 50 cents and general admission 75 cents.

Professor Orchard, head of the drama division of the School of Arts department, is directing the production.

Technical work for the production is under the supervision of Everett Wilson, graduate in drama from York University, and a full time employee of the University.

Molire was one of the first authors to introduce into his plays a theme which was not only comic but tragic. From the actions of "Arnolphe," Molire has produced a story suffused with human feelings and rich in scenes of comic pathos.

Members of the cast include Professor Robert Orchard, Lois Enright, Professor Gordon Wilson, June Richards, Paul Coulahan, and George Treasures, Raina Yau, and Helen Yau.

Costumes for the production have been designed by Gwyneth Evans, instructor in art at the University.

### Gilson New Prexy Of Outdoor Club

A new slate of officers was installed at the business meeting of the Outdoor Club held Tuesday evening, November 7, in the Med Building.

The new executive is: President, Gordon Gilson; vice-president, Paul Coulahan; and secretary-treasurer, Raina Yau.

Red Holley has been elected cabin steward. Also discussed was the fact that cabin fees will be increased to \$1.00.

There will be a dance Friday and Saturday night on the campus. The Social Convener has organized a dance.

The seventeen members present learned that the membership fee is \$1.45 and that crests are available for \$1.45.

There will be a dance Friday and Saturday night on the campus. The Social Convener has organized a dance.

One of the new officers, Dr. Jaroslav Huber, a Czech political refugee now studying law here, will describe aspects of his country behind the Iron Curtain.

Dr. Huber has told The Gateway he may also tell how Parisian students play games with bottles of champagne. He refused to divulge details.

Filling out the organized portion of the evening will be a brief skit portraying humorous incidents at the International Seminar held in France this summer.

ISS executives invite all students and faculty members to attend, and would especially like to see present those who were asked by Huber. They hope that a good turnout will encourage a second International Night in three weeks' time.

### International Night Monday

Prominent students and faculty members of the university have been invited to attend an evening of entertainment this Monday.

ISS is presenting its first International Night, this evening at 8:30 in the International Lounge of the SUB.

The organized program will start about one hour, and will be followed by refreshments.

Program will be highlighted by a brief informal talk by Pat Daniel, ISS national secretary, who is touring western Canadian universities.

A UNESCO short subject film will be shown depicting conditions socially in other North American centres, dealing with relief problems, will be shown. The twenty-old foreign students who are studying

at present there are 37 members, and since the club should be more active next year, are all invited to see any one of the executive: Gerry Francis, president; Terry McCullion, vice-president; Keith Williams, sec.-treas.; or Rod Stutchbury,

At right is Mr. Pat Daniel, seen aboard ship as he returned from the ISS seminar in Europe this summer. Mr. Daniel is the permanent secretary of ISS.

## Action!

We have had enough!

The present situation in respect to certain matters on this campus is deplorable. In fact, it is undoubtedly the most deplorable situation that has ever struck a university campus in the Dominion of Canada.

The Gateway feels that a strong stand must be taken. Our position must be made clear. We must insist that steps be taken to rectify the situation.

Too long has the condition existed. Too long have those in authority remained silent. Action must be taken.

The Gateway is ever ready to pardon any errors committed in good faith. It is felt, however, that under the prevailing circumstances no evidence of good faith can be found—only total and absolute ineptitude, bordering on complete dereliction of duty. No excuse can possibly justify present conditions. Nor has any excuse been offered. We are met only with silence.

Those responsible must be brought to account. Their errors must be corrected and students once again must be permitted to carry on their activities unhampered by the results of their negligent handiwork. They must be made to realize that their duty is to the student body and not to themselves.

It is regretted that some individuals will naturally be hurt by this campaign to improve matters on the campus. We can only say that they should have thought of their responsibilities when they took office. The Gateway remains adamant.

Action must be taken!

## CAMPUS COMMENT

If this column seems to contain an inordinate amount of football chatter, and not all of it, or even much of it, directly concerned with the U of A, it's the natural result of the fact that football of the play-for-pay variety is absorbing everyone's interest these days. And since the studies at the U of A do not have a football team of their own, and since they have never had to worry with the Eskimos, and since the Eskimos are wearing ex-Golden Bear uniforms, the studies seem to have adopted the Eskimos for their own.

With the preliminaries over, and the apologies to our slavish conscience done, let's get down to business.

Before we tackle the Eskimos (in a purely literary sense) though, let's take a look at one of the other major universities of this land who feel they're being cheated by the absence of the Golden Bear gridiron squad. Let's make it feelings public on this sort of thing is D. K. MacDonald, who got betwixt and between and all around the argument last Friday.

Look, hub, it just ain't practical.

Yah, let's rebuild college football, let's hold games in our own stadium on Saturday afternoon, at cost price. Let's play Saanich, Manitoba, and UBC.

Stadium? Didn't ever figure how much it would cost to build a new set of bleachers? I don't think in these days of fantastic building costs? If I were to estimate, it would be something like \$100,000.00.

Didja ever figure how much it costs to buy a complete set of equipment for a modern day team of players, how much money goes down the drain for liniment and tape, and trainers, and torn equipment?

Didja ever add up how much it costs to send a full squad of men to Manitoba, to pay for their fare, their food, their hotel bills. And if you're going to have Saskatchewan and UBC play here, you've got to take care of the transportation and travel to their location, and when they come there, they want to be sure they're not going to lose too much money either, so you've got to guarantee them a solid sum of money before they're gone. And if it happens to rain, or snow, or everyone else who's gonna be there, you've got to make sure they're not gonna be stranded.

Didja ever add up how much it costs to send a full squad of men to Manitoba, to pay for their fare, their food, their hotel bills. And if you're going to have Saskatchewan and UBC play here, you've got to take care of the transportation and travel to their location, and when they come there, they want to be sure they're not going to lose too much money either, so you've got to guarantee them a solid sum of money before they're gone. And if it happens to rain, or snow, or everyone else who's gonna be there, you've got to make sure they're not gonna be stranded.

Didja ever figure out what your ticket to one of these games in our own stadium would cost, when you average out all these costs, and there's a little for insurance, etc. etc. It'll cost you as much as a centre section seat in Clarke Stadium or maybe more, and you wouldn't see the same grade of football.

Sure, it'd be nice, but fellas, just ain't practical.

Until such time as the U of A is surrounded by large universities like Toronto and Western; until such time as they're just as close as Queen's is to McGill so you can whip up a little rivalry and a special football train or two or three; or until such time as some money-mad millionaire decides to give the University several of the mad millions to sink into football (which the professors would like anyway) . . . there just isn't anything you can do but dream about it.

## CAPITAL CAPERS

It's getting around to the time when the good citizens of Edmonton begin to think, and think hard, about the kind of show they're going to make down Toronto way come Gray Cup time. Yep, that's when it starts.

We pointed out the obvious possibility of the Eskimos being in the cup come November to a local sportscaster way back last August, and we're still convinced.

Look, hub, you know what, more than anything else, made the Stampeder effort of the past two years so very successful? It wasn't really the fact that the fans were so lively, though that did have a lot to do with it, and it wasn't really the fact that those wonderful fans made up just about the City of Toronto. (By the way, we're really not talking about the ones who went to the Stampeder game. We have a love for the football Stamps, but oh those fans! Their cavalry of fifty cars to last Saturday's game in Edmonton is proof of the kind of thing we mean.)

The thing that made the Stampeder show so very successful was

# Gateway

## Defence Research Board

Department of National Defence

"Hold on, folks! Handsome Harry is saying something to his opponent. Let's listen!"

(On the air) — "Say, you lug! If you'd lick Dry Scalp with 'Vaseline' Hair Tonic you'd have nice looking hair and get across with the crowd, too."

Vaseline HAIR TONIC  
TRADE MARK

\*VASELINE\* IS THE REGISTERED TRADE MARK OF THE CHESAPEAKE MFG. CO., CONS'D.

those white hats! Yep, if you were dressed in tie-and-tails, or in blue jeans and sweater, you were immediately a Stampeder if you wore a white hat. Seems trivial, but it's true.

And if you were a Toronto citizen, and decided to cheer on those "mad" Westerners, all you had to do was get yourself a cardboard cowboy hat like a breakfast cereal manufacturer passed out by the thousands, and you were a Stampeder.

The Eskimos and a hundred supporters were in Regina for that game two weeks ago, do you know what the Regina fans chanted for? It was for one of those sun helmets, imitation drillers hats, that were painted Green-and-Gold.

Which is why we say "nuts" to Edmonton's "toney" cultural and economic offerings. We've had many a "nun" to the arena of smoothies in a parka, and that didn't go down too well. No idea, I guess. What's a "Gateway"? In its original sense, it's an empty space between two posts through which you funnel things.

And what's Edmonton got? Oil. Millions of dollars worth of it, it's sitting on it, and it's getting rich from it.

So let's let a few thousand of those silver drillers hate with the minnows, derricks, tops, and let's boast about what we've got, not what we've sent on to somewhere else. And if we've got to take the horse's mouth off Easterner's, and it's a good idea, let's make a portable drill rig, complete with shack and all the trimmings, and let's set it up on the steps of the City Hall in Toronto, and let's pour coffee out of it through a miniature set of realistic well fittings, and let's burn the coals of the staid Toronto hearts through our coffee and our fun.

## CASET COVERS COPELAND

A gentleman by the name of Tom Casey, a stellar backfielder for the Bombers, also writes a weekly effort for the Manitoban, and a good effort it is. If you're interested in Conference football, it makes good reading, because you get the dope right from the horse's mouth, so to speak.

We herewith reprint several items selected from Casey's Column over the past few weeks. We know that we're printing them out of context, but their meaning is clear. Without further adieu, here they are.

Tuesday, Oct. 17 — "Copeland has had a crushed chest so severe that he can hardly get a sitter to lay him down when lying on his back. Now he has an injured knee along with the chest. I don't know what some people expect, but if the guy had any more guts he wouldn't be human."

Which probably explains why Copé was signed to another Calgary contract last week after what was, for him, a comparatively dismal season.

"Bombers agree that Mr. Dojek is the most proficient official handling our games. One critic in his regard is that there's something called professionalism which he seems to get mixed up with the word 'honor'. He's inclined to believe his colleagues to make bad calls which are not in the best interests of the game. But it isn't ethical to overrule the supposedly competent officials and so twelve men on the field plus everyone else concerned are subject to ridiculous injustice. As for the other officials, it has been suggested that they be given tickets so that they can see the game from the stands."

Nut said! We lost the date on this one incidentally.

And that's it for this week. Best of luck, you Eskimos, and chase those Bombers right out of the stadium.

## LIGHT AND SOUND

From this date forward, advance notice of ten days will be required for all organizations wishing the services of the Light and Sound crew.

When special lighting effects are wanted the director should be consulted at least two weeks prior to the event.

No jobs will be accepted unless the above notice is given.

## Betwixt and Between

Editor, The Gateway.

In reply to many complaints I have received, I would like to call attention to students to my exact position as signboard man.

I am compelled, and quite anxious, to comply with the regulation of the Students' Council regarding size of signs, etc. These, and some others, are now in the hands of the signboard men. I have found in the lower corner of each of the boards in the roundups of the Arts, Med and SU buildings.

I am in charge only of the boards in the roundups of the Arts, Med and SU buildings, and the other two in the SU building, and hereafter will refrain from posting notices in any other place. My position is that the signboard men have been expecting me to post their notices all over the campus and, in some cases, off the campus. This is a reasonable position, and I have refrained completely from posting notices on any places other than my own charges.

Hoping, Mr. Editor, and understanding my position, I remain,

Philip Garrison,  
Signboard Man.

# Fashion Forecast Of Feminine Outfits

Prettiness, plus wearability and practicality, are foremost in any college woman's mind when selecting new articles for her fall wardrobe. Fall colors are orange, brown, russet, mink, and forest green are

being slightly crowded off the fashion market by the latest new shades of beautiful blues, violet, maroon, purple and gray.

Velvets are in fashion for gray is reflected in soft gray velvets and pale gray gloves. Contrasting color schemes are also popular. A black coat with yellow wool belt or a black jacket lined with red silk.

Town-tweed suits with becoming velvet collars and the scarf-suit in light gray, fawned are filling the fashion sportswear now. Although straight and full suits are predominate the fitted coat is the coming trend.

The newest silk is winter-shantung, and soft woods are combined with satin, velvet and tweeds for afternoon and evening wear. Pleats are still in the vogue, belts are straight and wider, and sleeves are straight.

Satin hats, half pillowbox, half toque, are seen all around the campuses in color—dark red with greige tweeds and blue feathered toques with matching hats.

The most valuable dress in any wardrobe is the basic fashion which this season could easily be a winter or a spring dress. They are combined with satin, velvet and tweeds, and various occasions by the use of a white linen collar and cuffs with a bridle trim, turquoise cowl with matching hat or a red corduroy hat with a bow.

The small detail, the way of a neckline and the combination of colors worn are the fine points of the fashion forecast for this season.

## Steve's Report

"Oh boy, those nurses! Let's do it again sometime. I got a lulu," were the expressions of the St. Steven's nurses early Tuesday morning, returning from the Halibut party.

General Hospital nurses provided masks, entertainment and dancing at the Legion Hall. In return, some of the students invited the girls to a party at St. Steven's. So far, none have shown up.

Those who stayed home showed a marked increase in concentration, the girls' studies after a policeman was shown in mistake for a window-scraper.

Water on the third floor caused with the failure of the heating system. Opabin had it that they hadn't been here long enough to warrant a bath.

The new washing machine is doing yeoman service for those who can get near it.

## American Women Represent Clubs At UNESCO Meet

Forty American women representing eleven million members of the Canadian, American and World Clubs of America, both in the United States and other countries visited UNESCO House early this month.

Hostess for the Canadian delegation, Mrs. H. C. Houghton of Washington, D.C., they were received by Mr. Jaime Torres Bodet, Director-General of UNESCO. The Director-General and them all gave their members in efforts to build permanent peace. "Today as never before," he said, "the influence of education, belief and reason is needed for these countries can recover from the shock of world wars and the neglect of generations."

Then I could say that one of the most valuable experiences of the summer will be the chance to see Canada and Canadians. North Americans and North Americans, in perspective, I can say that I learned a great deal about Canada during the summer from the fifty Canadians with whom I worked every day for about eighty days.

Mr. Torres Bodet also referred to UNESCO's action in support of Women's right to education, which, he said, "we are trying to make a reality." "We believe that our organizations as young, with their active membership and multifarious activities can powerfully mould public opinion."

Mr. Torres Bodet also referred to

UNESCO's action in support of Women's right to education, which,

# A Career...

## *Ready Made for the Class of '51*

The Armed Services of Canada offer you a PERMANENT COMMISSION in either the regular Navy, Army or Air Force COMMENCING NOW WHILE YOU ARE TAKING YOUR LAST YEAR AT UNIVERSITY.

Full pay and allowances effective the date of your application will help you to finish your education as follows: In the rank of Acting Sub-Lieutenant, Second Lieutenant or Pilot Officer:

	MARRIED	SINGLE
Pay .....	\$153.00	\$153.00
Subsistence Allowance ...	55.00	55.00
Marriage Allowance ..... <small>(IF ELIGIBLE)</small>	40.00	....
Total.....	<u>\$248.00</u>	<u>\$208.00</u>
Less Pension Deductions...	15.18	12.78
Less Income Tax Deductions	8.95	15.90
Net pay each month .....	<u>\$223.87</u>	<u>\$179.32</u>

As a commissioned officer in the regular Armed Forces your financial security on retirement is assured by an EXCELLENT PENSION PLAN.

For example: A Commander, Lieutenant-Colonel or Wing Commander with six years services in rank and thirty years total service would receive a pension upon retirement of approximately \$300.00 per month for as long as he lives.

In accepting an immediate appointment as a regular officer in the Royal Canadian Navy, Canadian Army or Royal Canadian Air Force, you are offered a PERMANENT CAREER to serve until you reach the retirement age for your final rank held on completion of your service.

Veterans or non-veterans are eligible for consideration. Previous service is NOT a prerequisite, except for the Royal Canadian Navy where service in the University Naval Training Division, or as an ex Naval Officer, is a requirement.

Before making any definite post-graduate plans, make sure you investigate this proposal thoroughly.

For full particulars contact one of the following officers:

**ROYAL CANADIAN NAVY:**

Lieutenant RE Phillips, 103 Power Plant Bldg.

**CANADIAN ARMY:**

Major JE Pincock, University Drill Hall.

**ROYAL CANADIAN AIR FORCE:**

Flight Lieutenant JH Woods, D.F.C., University Drill Hall.

## Dollars And Sense

By John Dickens  
Western Ontario U. Gazette (CUP)

**O P P O R T U N I T Y C O S T**

Everyone has an Opportunity Cost. For example, if you can catch either 3 beavers or 2 deer in one day, in terms of Opportunity Cost: **Beavers—2 deer.**

If you travel and rather stay home, drink beer and make time with a couple of squaws, then, of course: **3 beers—2 dears.**

### STOCKS AND BONDS

When a corporation is formed, the directors will sell stocks and bonds to raise money. This is probably because we already have too many loggers and their wives wouldn't like it if they sold their French postcards.

### STOCK EXCHANGE

The Stock Exchange is known as the Bull and Bear Market, and is the result of un-patriotic trappers neglecting their beavers and deer.

### FOREIGN EXCHANGE

The essential thing to remember here is that the English weigh their money. A pound of English money is worth quite a bit.

### CURVES AND GRAPHS

Curves are necessary to draw graphs, and graphs are very useful in Economics. There are simple curves—Supply, Demand, Backward-Sloping, Forward-Sloping, Elastic and Inelastic—and combinations of curves. A graph which has an Inelastic Backward-Sloping Demand Curve would look much better in her Adorable bra.

To draw an economical graph, you must know that the point at which

the Demand and Supply intersect is the point at which the trapper will decide to spike the dears' beers.

### DEPRESSION

Depressions happen when there are too many poor people, and could be controlled if only the banks would either buy or sell more porridge on the Open Market.

### TAXES

There are three main kinds of taxes: direct, which tax Directors, indirect, which tax the mass of the populace plus beavers, and deer, and the syntax, which is a shoddy tax because it makes people pay for their fun.

### EXECUTIVE HEADS 6

The executive head of a company is known as the Chairman of the Board, except, of course, in lumber companies, where he is the Chairman of the Boards.

### SCHOLASTIC STANDING

That the scholastic standing of all applicants for university appointments under The Students' Union be investigated before such appointments are made, and that no student who, in the opinion of the University Board, has attained a satisfactory standing, should receive such an appointment.

## Standing Resolutions

(Editor's Note: It is required that The Gateway publish the Standing Resolutions of the Students' Union in the first issue of each year, otherwise the session and the Resolutions are therefore published now.)

### Dramatic Society Advisory Board

1. That there shall be working with the Dramatic Society Executive an Advisory Board on play selection.

2. That this Board shall consist of three non-student members, two of whom shall be selected by the Drama Board, and the third by the Literary Society Executive, and the third to be chosen by the President of the University before being asked to act.

3. That the names of the first two who are selected be approved by the President of the University before being asked to act.

4. That this Board shall be appointed annually and the appointment to be made before the first day in November of the year during which it is to hold office.

### HONORARUM

1. The following people be given some consideration: the having Council discuss granting merititious awards to them for their year's work.

2. Trappers believe they will make out a helluva lot better once the dears are drunk.

ROOM AND BOARD available for one male student. 10611 83rd Ave. Phone 31475.

## Theatre Directory

### ODEON THEATRES

RIALTO—Thurs. Nov. 9, to Wed., Nov. 15, "Blossoms in the Dust," with Greer Garson and Walter Pidgeon.  
VARSCONA—Held Over: "Hamlet," starring Lawrence Olivier. Coming: "Golden Salamander."  
AVENUE—Nov. 10 to 13, "Green Grass of Wyoming" and "Jackpot Jitters." Nov. 14 to 16, "Forbidden Street" and "Night at the Office."

ROXY—Nov. 10 to 13, "In the Good Old Summertime" and "One Last Fling." Nov. 14 to 16, "Great Gatsby" and "Colorado Territory."

### FAMOUS PLAYERS

CAPITOL—Friday, Nov. 10, to Thurs., Nov. 16, "Treasure Island," starring Bobby Driscoll and Robert Newton.  
EMPIRE—Sat. Nov. 11, to Friday, Nov. 17, "Stage Fright," with Jane Wyman, Mala Powers, Richard Todd, and Michael Winslow. Sunday, Nov. 13, "Golden Twenties."  
STAND—Friday and Sat., Nov. 10 and 11, "The Happy Years" and "Counterparts." Mon. to Wed., Nov. 12 to 15, "The Great Jewel Robber," with David Brian and Margery Reynolds. Added, "Frontier Investigator." Starting Thurs., Nov. 16, "Trigger Jordan," with Roy Rogers. Added Feature, "Jungle Standoff."  
GARNEAU—Friday and Sat., "Woman and the Slave Girl," and "The Golden Trailblazers." Starting on Mon., Nov. 13, "The Third Man," starring Orson Wells and Joseph Cotten.

## QUALITY!

Whether the pictures be taken in our Evergreen and Gold studio in the S.U.B., or whether they are taken for other purposes in our studios over-town, Goertz can be counted upon to create the finest portrait you have ever had!

YOU CAN GIVE

**GOERTZ STUDIOS**

CAMPUS STUDIO Room 210  
Students' Union Bldg.  
LAFLECHE BLDG. 10043 102 St.

OFFICIAL YEARBOOK PHOTOGRAPHER

With the full power of the engine behind it, a propeller shaft has to have great strength and stiffness or it will bend or break. "Monel" shafts give remarkable satisfaction and long life.

Trolling lines of "Z" Nickel wire are being used more and more because they are tough, rust-proof and able to hold fish hooks and tackle made of Nickel alloy are strong as steel, and resist corrosion even in salt water.

maintenance of any and all equipment which may be required for the Students' Union or any member organization, and which in the opinion of the Students' Council is necessary to be expended against current disbursements.

### 6—CLASS FINANCES

(a) All classes shall be funded aside from each gift provided that:

(1) The Evergreen and Gold turned over to the Students' Union a surplus of more than \$100.00.

(2) The Students' Union (including The Gateway and Year Book) had a total surplus of more than \$100.00 for the preceding session.

### 3—THE STUDENTS' UNION

That the Students' Union General Reserve Fund (in bonds and saving certificates) be built up by the following methods:

(a) One hundred dollars shall be set aside each year to be provided for the Students' Union General Reserve Fund (in bonds and saving certificates) by the following methods:

(1) The interest payments received by the Students' Union General Reserve Fund shall accumulate in an Interest Reserve Fund which shall be used herein set out.

(2) After the Students' Union General Reserve Fund has reached the amount of \$1,000.00 no further grants shall be made to it.

4—INTEREST RESERVE FUND

That the Interest Reserve Fund shall consist of interest earned on The Gateway Reserve Fund, Evergreen and Gold Reserve Fund, and the Students' Union General Reserve Fund.

(b) All interest payments received from the investments of The Gateway Reserve Fund shall accumulate in an Interest Reserve Fund which shall be used herein set out.

(c) The Senior Class gift shall not exceed one hundred and ten dollars (\$110.00) and shall appear in the Senior Class gift slip.

5—THE SENIOR CLASS GIFT

That the Senior Class gift shall be set aside each year to be provided for the Students' Union General Reserve Fund.

(a) The Senior Class gift shall be set aside each year to be provided for the Students' Union General Reserve Fund.

(b) The Senior Class gift shall be set aside each year to be provided for the Students' Union General Reserve Fund.

(c) The Senior Class gift shall not exceed one hundred and ten dollars (\$110.00) and shall appear in the Senior Class gift slip.

6—RECOMMENDATIONS

1. That the Students' Council recommend that the Secretaries of the various departments of the Union prepare a full statement of their department's activities, which will be given to the succeeding secretaries for reference from year to year.

7—GATEWAY

That The Gateway shall be published not less than thirty (30) times during each academic year, and that the price shall be changed only by a motion of the Students' Council to that effect.

### IMPROPER SIGNS

It shall be an offence for any student to put up, or exhibit in any way, or cause to be put up, shown or exhibited in any way, any lewd, indecent or suggestive picture, or any other matter.

### SOLICITING FUNDS

Resolved that no member of the Students' Union and no organiza-

tion whose constitution is ratified by the Students' Union shall solicit funds or make an appeal for donations of any kind on behalf of the Students' Union or the aforesaid organizations, or in any manner which would be contrary to the express authority of the Students' Council or the Executive Committee.

1. N.F.C.U.S. Scholarships  
The Students' Union fees for all Faculty Scholarships attending the University of Alberta or the N.F.C.U.S. Exchange Scholarship scheme shall be retained by the Executive Committee.

2. FIRE PRECAUTIONS  
Since the University Drill Hall is not a fireproof building, some hazard exists in this regard where a large group of students are assembled.

Therefore, it is resolved that the following precautions be taken by the sponsor of any event which is under the direct control of the Students' Union before such event is held: (a) Fire alarm system; (b) Fire extinguisher; (c) Fire Accountant before issuing a permission slip will see that the sponsor has contacted the student fire warden in residence and is familiar with these rules.

3. PLATFOM

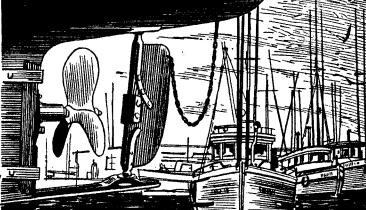

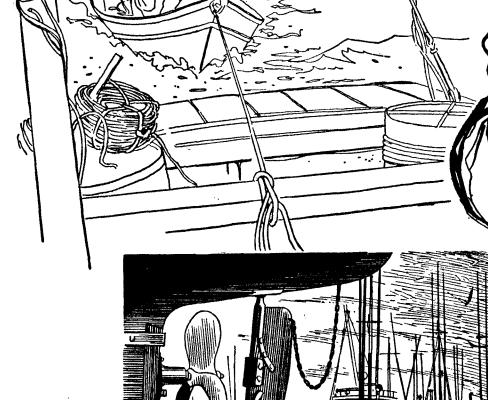

If a platform is used for dances or speakers such platform must be so situated that at least fifteen feet is left clear of the platform as a passage way to the large doors.

2. If seats are used in the Drill Hall, a twenty foot aisle will be left in the centre leading directly to the main door, and a similar aisle of way of a least ten feet on each side.

3. The pins are drawn in the large doors and doors work freely.

4. That no obstruction exist on either the inside or the outside of the main doors.

*So... Nickel goes fishing*

Equipment made of Nickel alloys is used in handling and canning fish and other sea food because it is rust-proof, sanitary and stands an immense amount of wear.

Forty-three years of research have uncovered hundreds of uses for Nickel in the United States and other countries. Now Nickel exports bring in millions of U.S. dollars yearly. These dollars help pay the wages of the 14,000 Nickel employees in Canada and also help pay Canadian railwaymen, lumbermen, iron and steel workers and other men and women making supplies for the Nickel mines, smelters and refineries.

## Campus SPORTALK

By Jim Redmond

### More Seasonal

Now that basketball has opened its winter's stand, maybe we can manage to get out a column without worrying about somebody else's football problem.

**Varsity Golden Bears,** or their fans at any rate, got a bit of a shock last weekend when they opened the hoop season against the Waterloo Meteors.

The campus senior cage squad didn't look too sharp in dropping the 68-48 verdict to the Motormen of Bob Strother. The overlanders led the Bears for almost the whole contest, and won going away.

What was more surprising than the mere fact of a Meteor win was the weak Bruin defensive play. A couple of the Meteors found themselves in on the basket home-free more than once during the evening.

**Coch Van Vliet,** with a new, young team including seven newcomers among the twelve on hand for the game, more or less expected a disorganized attack. Although they went well in practice sessions before the opener, that was the first game together for most of them.

Usually, the Green and Gold aggregations are especially strong on defence. Last year's provincial finalists rarely had more than 40 to 50 points against them, even when they lost. The boys are going to have to check a lot closer than they did in that first game.

This weekend's games at Lethbridge should do them a world of good. We expect to see a greatly improved performance by the time they meet the Meteors here next Friday at 8:15 in the Varsity gym.

Several of the newcomers showed up well in the initial encounter. Calgarian Don McIntosh played a good game, and led Bears in the scoring column with an even dozen points. Geoff Mortimer, too, will be good for plenty of scoring punch when he gets his shooting eye back.

\* \* \*

### More Football?

That's right! We've still got things to say about the grid game. After all, who are we to be different?

This is concerned with local football, though. We haven't got any here this year, but there's going to be lots of words and fun and feathers and things flying about the subject Wednesday night. The return of football to the campus will be discussed at the Debating Union next Wednesday night.

The proposed date has been changed so many times we're a bit confused, but we hear it'll be 7:30, Wednesday, Nov. 15, in Co-Rec Hall.

All you campus sports fans should make it a point to be on hand to support those in favor of the possible comeback of the great fall pastime.

\* \* \*

P.S.: We no sooner finish making all our remarks about the powerful McGill Redmen down East, then they go and play to to the underdog Toronto Varsity Blues.

\* \* \*

### Welcome Coach

A great big welcome is extended to the new Golden Bear hockey coach, NHL veteran Art Wiebe!

\* \* \*

### Pre-dickshuns

Despite the suicidal aspects of same, we will now stick ye olde neck out with some predictions:

1. Winnipeg Blue Bombers will take the remaining two games with the Eskimos by margins of from 3 to 6 points... (darn it).

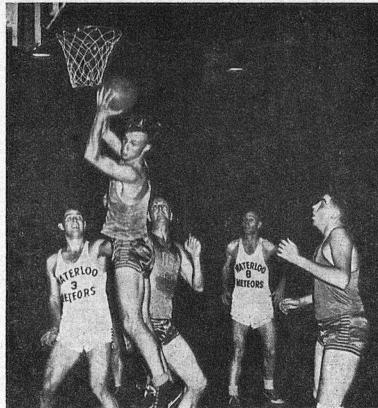

2. Don Matheson's face will be red as his hair next Thursday morning.

3. Touch football players will agitate for use of a white football if it snows before the playoffs start next Tuesday. (We haven't seen the hidden-ball trick in years.)

4. Calgary Stampeders will not win the Grey Cup.

5. 80% of these predictions will be wrong.

### WAY UP . . .

—Photo by Godfrey.

Standout for Golden Bears in their opening game was Calgarian Don MacIntosh. Here MacIntosh outjumps a couple of Meteors as he grabs a rebound. Around to give him moral support are Johnny Higgin (far right) and Geoff Mortimer (16). Meteors are Bill Lofton (8) and Gord Pearce (3).

## Bears Travel South For Weekend Games

By Roy Porkka

Friday morning at 7 a.m. the Varsity Golden Bear Hoopers leave for the South. Travelling along with the Waterloo Meteors they will play a two-game series in Lethbridge on Friday and Saturday.

### Curlers Start Big Year With 56 Rinks

Curling got underway on Tuesday, Nov. 7, and this favorite winter sport expects to be as popular as ever this year.

There will not be any cans given away as prizes, but there will be awards for those who come out in the top brackets.

The curlers will be split into sections of 18 teams, and a round robin is held where the rinks will play 17 games in their group. At the end of the section winners are thrown into a playoff match.

Handicaps are given to the individual players so that the ranks are not composed of one team with an equal foot in with the ranks of more experienced curlers. All that is requested of the players is that they wear rubbers, when on the ice.

If there are any changes, the men will be given a chance to be re-drawn into committees. Fred Reid and Don Fischer, can be contacted at the Dental Clinic, and R. Sutherland in the Med Faculty.

The first night will be the Bears' tangle with the hard driving Magrath Rockets in the new Lethbridge Civic Centre. Meteors will be working with the Edmontonians and the Green Arrow squad in the second event on Friday evening.

Saturday night the series will be continued as the losers and winners of the previous nights tussle, get to the same floor for two more games.

**12 Hoopers Make Trip**

Coach Maury Van Vliet is taking 12 of his girls to the Canadian Open at Sunshine land for the games. They are Al Anderson, Reid Erickson, Johnny Higgin, Ed Lucht, Don McFerren, Gord MacLachlan, Tom Mayson, Geoff Mortimer, Ole Nielson, Don Newton, Ron Southern, and Herb Teske.

Hopkins will make the trip, although he will not play. Ed Hopkins just had a knee operation and can't any strain on it yet. Steve Mendryk, a stand-out on the Bear team, is not able to keep up with the Varsity squad, so will be helping the Eskimos trim the Blue Bombers.

He will make the trip, as expressed by Mr. Vliet, but needs much-needed experience for the team, which is very young in general. Winning would be nice, but on this trip the Bears hope to learn the know-how which will be all important when playoff time rolls around.

Team members are looking forward to the trip. Not only will it be the first time the girls will play in the new gym at Lethbridge, but also they plan a party after

## Co-Ed Clippings

By Barbara Glaser

### Intervarsity Volleyball

How would you like a trip to Saskatoon? You would? Then turn up in Assinibina Gym, Wednesday, Nov. 15, at 4 p.m. for trials for intervarsity team call "co-ed". This team represents the U of A in Saskatoon at the Women's Sports Week in March. It is also a possibility that it will represent the University in the newly formed volleyball league. All interested are asked to turn out.

In intramural volleyball play, Education I still leads with 12 points, following by Nursing I and Arts and Science with 10. The schedule has been revised, and play for Thursday, Nov. 14, is as follows: 7:30—Education 3 vs. Education 1; 8:00—Nursing 1 vs. House Ec.; 8:30—Education 2 vs. 2.

**Swimming**

The last session of the swimming instruction program that has been going on for six weeks under the direction of Miss Pat Austin will be held Nov. 14. Practice for the intervarsity team will start Nov. 21. Assisting Miss Austin in coaching co-eds will be Miss Doris Elliott, director of several provincial swim titles.

\* \* \*

**Native of Southern Saskatchewan**

Originally from Southern Saskatchewan, the new Bear coach obtained all his early hockey experience at Vermilion. He played his first senior hockey at Edmonton in 1946 and 1947.

From the local hockey scene he moved on to play professional in the U.S., seeing action with St. Paul, and when the team disbanded, with the Chicago City. After two seasons there, he moved up to the Chicago Black Hawks.

While with the Black Hawks he earned with Earl Seibert to form a famous double act.

After completing his NHL career, he returned to Vermilion for his stint with the local team, and now returns to hockey with time available from his employment with an oil-drilling firm.

**Schedule Same**

Schedule remains, at present, as outlined earlier in The Gateway, with St. Paul still in the dual status. Financing remains the same.

**Art Wiebe**

Art Wiebe will be meeting with officials of the Phys. Ed. department and the students in a few days news about practices, players, etc. should be forthcoming at that time.

## Art Wiebe Coaches Varsity Puck Squad

Appointment of a new coach for the hockey Golden Bears has been announced. Slated to handle the reins of the campus ice-machine for the coming year is former National leaguer, Art Wiebe.

Art Wiebe, a veteran of ten years' coaching, will change back to the Hawks, will succeed Clarence Moher, who has handled the squad for the past two seasons. Moher, as anticipated, has found another preoccupation, namely building his new hotel venture in the oil-town of Leduc. Will make it impossible for him to keep up his coaching.

Wiebe will be returning to the game after a short absence of a couple of years. His last connection with hockey was with Vermilion Tigers in 1946 and 1947.

While at the helm of the Bears, Wiebe piloted them to two more in their long series of Halpenny Trophy wins over the U of S Huskies, and also handled them in a number of games with BC and American colleges.

Wiebe will be returning to the game after a short absence of a couple of years. His last connection with hockey was with Vermilion Tigers in 1946 and 1947.

Originals from Southern Saskatchewan, the new Bear coach obtained all his early hockey experience at Vermilion. He played his first senior hockey at Edmonton in 1946 and 1947.

From the local hockey scene he moved on to play professional in the U.S., seeing action with St. Paul, and when the team disbanded, with the Chicago City. After two seasons there, he moved up to the Chicago Black Hawks.

While with the Black Hawks he earned with Earl Seibert to form a famous double act.

After completing his NHL career, he returned to Vermilion for his stint with the local team, and now returns to hockey with time available from his employment with an oil-drilling firm.

**Schedule Same**

Schedule remains, at present, as outlined earlier in The Gateway, with St. Paul still in the dual status. Financing remains the same.

**Twenty Players Trying Out With Junior Champs**

By Keith Lytle

Varsity Bearcats, last year's Junior Provincial Basketball Champions, are beginning to round into shape for the coming season, which promises to be an active one.

In an action on Wednesday afternoon, Coach Don Smith informed us that in practices during the past two weeks about twenty boys have been turning out. Coach Smith expects to have his rosters drawn down to 12 men for the season opener.

**Three Holdovers**

Three members of last year's team—John Black, Charlie Hodge and Jim Doherty—will be turning out, and with these boys as a foundation Smith hopes to produce another winning team.

**Set-up of the City Junior League**

In which the Bearcats will participate, will be the same as last year, with the exception of Stingers, who will not be in the league this year.

**Five Teams are Entered**

The league schedule has been drawn up, but arrangements for floor space, which are as yet being made, remain to be finalized.

**Positions Still Open**

Anyone, 20 or under, after Jan. 1 is eligible to play in the Junior loop. Positions on the club will still open for any interested students. Practices are held each afternoon at the Varsity Gym.

**Interfaculty Swim Meet**

An interfaculty mixed swim meet will be held at the YWCA pool the first Wednesday in December.

Entry fees will be 50 cents.

All mixed swim events will be on the agenda, and each swimmer is allowed to participate in as many events as he wishes. Each faculty will win two points.

Afterwards there will be a social hour.

**Further Information will appear in The Gateway soon.**

### Intramural Items

By Bob Kerr

Old Man winter doesn't seem to be favoring the touch rugby and soccer enthusiasts these days. But playoffs will soon be upon us, and the followers of the more rugged sport can pack it up for the year and turn to something more gentle like basketball or boxing.

In the football field, the DUVs, the Kappa Sig, the Sigma Club and the PE Department will battle it out for honors in a two-game total point, round robin series. The first game is set for next Tuesday, November 14, when the DUVs thrash it out with the Kappa Sigs.

Second game will be played

in the field of honour when the Kappa Sigs throw their big rocks of granite up into the PE Field while the tussle will be seen on Friday or possibly Saturday when the PE's take on the DUVs.

The rules of these games will be at four o'clock, and three referees will be used to avoid any squabbles.

Twenty-five minute periods will be used instead of the usual 45 minutes, because some of the players complain that so much can happen in such a short time. They were referring to the conflict between the PE's and the DUVs.

After completion of the conflict, the PE's will be asked to move to the south end of the PE's field to avoid any further trouble.

Engineers will be gunning for their third straight championship in the interfaculty soccer league, which will be held if the PE's and the Science men fail to win their last two games. If the Artsmen manage to do this, a sudden death playoff will be rescheduled.

So far the Engineers have taken five games while drawing one, while the men from the Arts and Science faculty have two remaining games, one with the PE's today, the other for next week.

Engineers look like good bets to repeat their wins of the past two seasons.

Herb McLachlin tells us that the intervarsity basketball is off to a winning start this year with twenty-eight teams fighting for honors in the league. Games will be played on Monday from 7-8 and on Tuesday from 7-8.

There will also be games on Saturday when the Golden Bears are not using the floor.

Practice Time

Ellerbeck reports that when working out practice time should contact the Physical Education office, where times will be allocated to them.

### Interfaculty Swim Meet

An interfaculty mixed swim meet will be held at the YWCA pool the first Wednesday in December.

Entry fees will be 50 cents.

All mixed swim events will be on the agenda, and each swimmer is allowed to participate in as many events as he wishes. Each faculty will win two points.

Afterwards there will be a social hour.

**Further Information will appear in The Gateway soon.**

**LOST**

Chen 38 mm. knife. Also a small pocket knife on a leather cord. Attached to the cord is a small and important locker key. Please return to Evergreen and Gold Office, SUB.
